

OUR VISION...

By 2025, with support from our partners, all students will:

- *Be motivated to identify a career interest!*
- *Become career savvy!*
- *Learn financial literacy!*
- *Become civic-minded!*

Their enhanced career and life readiness will lay the groundwork for greater personal success and stronger community-wide outcomes.

Path to Careers helps connections happen — effectively and efficiently. Businesses easily register with information highlighting who they are, what they do and how they'd like to connect with schools and students by providing career awareness experiences.

Schools register so educators and students alike can easily learn about local businesses and then connect with them in ways that allow them to see, feel, and understand first-hand the opportunities that exist and the skills and abilities it takes to secure them.

CAREER READY CENTRAL PA

EMPLOYER OUTREACH GUIDE

Career Ready Central PA is a collaborative effort among education entities, employer-led, community-based, and workforce organizations serving Snyder, Union, and Northumberland Counties.

OUR MISSION...

Is to implement a comprehensive career education strategy to create and share resources and opportunities for schools, students, families and businesses that will produce a skilled, sustainable workforce.

OUR VALUES

- Increase student engagement & motivation
- Increase career & life readiness
- Generate a workforce with in-demand employability & technical skills
- Build pipelines of career ready students into our local workforce
- Develop civic-minded workers

ROI

Return on Investment for
business and industry partners

- Skilled individuals ready to work!
- Reduced employer training costs!
- Greater number of skilled workers!
- Workers who can think critically and solve work-related problems!
- An improved community with a successful economy!

How can employers help?

- Serve on a school district's career advisory board
- Provide expertise to teachers & students
- Mentor students in your career field
- Provide work-based learning opportunities for students & teachers
- Provide real-world challenges to deepen student learning
